

## A Reliable Bulk Salary Payment Solution for Banks

One of the most typical, yet extremely critical services a Corporate Bank would offer to their clients is, by far, the Salary Payment Transfers. Instant, bulk digital salary payment solutions are now the way to serve this purpose; offering a great deal of security, reliability and efficiency as well as compliance with global Digital Payment standards and regulations.

Building on the Digital Transformation vision for the banking sector in Jordan and the Region; Bayanat have designed and developed Bayanat SPM – a technology-independent Salary Payment Management Solution that is based on the world’s latest guideline and best practices for Bulk Payment solutions.

Through Bayanat SPM Banks can now offer their corporate clients the means to securely and swiftly perform bulk salary transfers through straight forward processes utilizing existing payment solutions, seamlessly integrating with backend banking solutions. It also provides corporates with self-service, connective means to manage their accounts and employee data, perform validation on different levels, as well as run analytical reports.

Bayanat team of certified consultants have designed, developed and successfully implemented Bayanat SPM in a number of Corporate Banks, and are proud to be the preferred Digital Payment Solutions Squad for the Banking Sector in Jordan and the region.
